

Geo Fennel - History & Commitment

Benchmark for measuring.
Laser measuring tools and surveying equipment from geo-FENNEL

geo-Fennel is German for Survey and Construction

Since 1851, geo-Fennel has sought to provide cost-effective measuring solutions to survey and construction applications.

With many world-first innovations under their belt already, geo-Fennel continue to strive for leading the way with quality, service and reliability in their products and services.

geo-FENNEL – a valued name in the world of surveying.

Located in Hesse /Germany we are a mid-sized company which has gained a good reputation as a supplier for laser measuring technology and surveying equipment. Today we are in the front row when users ask for laser measuring devices. Our products are recognised all over the world and we currently deliver them to more than 60 countries regularly. Our indispensable company philosophy is to provide our customers with innovative, precise and reliable products and to offer first class service. High quality, a good and fair price-performance ratio as well as fast delivery count among our principles. Our cooperative partnership with our customers is essential for us and our international orientation is a main strategy. Our long experience has convinced customers for many years now.

Quality that is measurable.

Enhanced by our commitment to service and support.

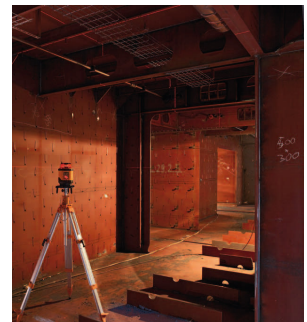

Service is our pledge.

Many can sell but only few can back this up with professional advice and extensive service facilities. At geo-FENNEL, our products and services are available at all times, home and abroad and our fully trained personnel are ready to support you with advice at any time. Whether you have questions concerning application, technology or sales we are committed to provide the assistance you require. State-of-the-art manufacturing technology, the care and continuous training of our employees and our efficient work ethic guarantee you a consistent high level of after sales service. Should a repair become necessary, our repair and spare part departments are ready to help - this applies to our complete product range.

Guaranteed First Class.

We strive to provide the user measuring instruments that offer all the advantages which characterise geo-FENNEL products: easy-to-use, cost effective, accurate measuring performance under almost all conditions with the highest reliability. We offer 2 years guarantee on all products. However, in the unlikely event that a problem should occur, simply contact your dealer. He will ensure that the product is quickly restored to full working order, or will replace it with a new one. Quick and easy.
