## Digi-Pas Smart Levels App Overview

### SMART 2D BUBBLE

This feature allows user to view 2-axis angle/levelling measurement at near zero angles simultaneously in graphical "Bull's eye" (with auto range feature) and numeric formats - °(Degree), mm/M & In/Ft units.

### SINGLE-AXIS

This feature allows user to view single-axis angle/levelling.

### CALIBRATION

Perform easy self-calibration to reset the digital level back to factory preset accuracy

## Supported smartphone OS versions

- Android 4.4 & above
- iOS 8.0 & above
