Telefix Telescopic Measuring Poles Made in Italy

Telefix Telescopic Measuring Poles are compact in size for easy transportation in the supplied protective case. It has vertical and horizontal vials for accurate measurements and each section , when fully extended, lock firmly in position. The rubber boot found at the base of the telefix is for protection against water and dust. The viewing window (at waist level) shows metric and imperial graduations for fast reading to EEC standards, class III. The telescopic measuring poles are available in 1m, 2m, 3m, 4m, 5m, 6m, 8m, and 10m lengths.

Features:

- Light weight aluminium telescopic measuring poles.
- Sight window positioned at waist level for easy readout.
- Inbuilt vertical and horizontal levels
- Automatic lock for each section
- Designed for external and internal use
- Water- and dustproof base
- Supplied with strong vinyl carry bag

Pole Length	Minimum Length
1 metre	32 cm
2 metre	49 cm
3 metre	66 cm
4 metre	83 cm
5 metre	99 cm
6 metre	116 cm
8 metre	136 cm
